SUMMARY

Eshwar is a dedicated and detail-oriented web developer with expertise in a wide range of modern technologies, including HTML, CSS, JavaScript, ReactJS, NextJS, Tailwind CSS, Vite, Node.js, AngularJS, and MongoDB. He excels in creating responsive, user-friendly, and high-performance websites that deliver exceptional user experiences. Committed to writing clean, efficient, and scalable code, Eshwar consistently stays abreast of industry trends to develop innovative web solutions that align with client requirements and surpass expectations.

EXPERIENCE

Team Member

Smart India Hackathon

📅 01/2024 - 04/2024

Development of innovative app solutions

- Contributed to the development of the Beach Buddy app during the Smart India Hackathon, focusing on improving user experience and safety through innovative feature implementation.
- Developed and integrated real-time safety features and user-friendly interfaces, enhancing the app's functionality and accessibility for beachgoers.
- Worked collaboratively with the team to ensure efficient integration of front-end and back-end components, delivering a scalable and robust application.
- Exhibited strong problem-solving skills and adaptability in a competitive environment, contributing to the team's success in the hackathon.

Team Member

Nasscom Hackathon

📅 01/2024 - 04/2024

Focus on AI Smart Grid solutions and enhancing energy efficiency

- Played a key role in developing AI-driven Smart Grid solutions, focusing on improving energy efficiency and advancing smart infrastructure capabilities.
- Contributed to the design, development, and optimization of algorithms, ensuring robust performance and scalability of the proposed solution.
- Collaborated with team members to integrate innovative technologies, enhancing the system's ability to manage energy distribution effectively.
- Demonstrated strong problem-solving skills under tight deadlines, delivering a high-impact solution that aligned with the hackathon's objectives.

Web Development Intern

Prodigy Infotech

📅 10/2024 - 01/1970

Web Development Internship

- Gained hands-on experience in designing and developing responsive, user-centric websites, ensuring cross-browser compatibility and optimal performance.
- Collaborated with cross-functional teams to enhance user interfaces, streamline navigation, and improve overall functionality of web applications.
- Contributed to the optimization of front-end code, resulting in improved load times and a seamless user experience across devices.
- Supported the implementation of modern web development practices, leveraging tools and frameworks to deliver high-quality, scalable solutions.

EXPERIENCE

Hack For Impact

Team:- Midnight Misfits

📅 03/2025 - 03/2025

- Participated as a key technical member in the Hack For Impact hackathon at IIIT Delhi, focusing on developing a disaster management rescue app to address real-time crisis response challenges.
- Designed and implemented features for the app, enabling efficient coordination of rescue operations, real-time location tracking, and resource allocation for disaster-affected areas.
- Integrated advanced technologies to enhance user accessibility and safety, ensuring the app's functionality in low-network environments for effective disaster response.
- Collaborated with a diverse team to deliver a scalable solution, showcasing problem-solving skills and innovation under tight deadlines, contributing to the team's recognition in the hackathon.

Hack With India

Team:- Midnight Misfits

📅 03/2025 - 03/2025

Company Description

- Participated as a key technical member in the Hack With India hackathon organized by Google, focusing on developing a disaster management rescue app to address real-time crisis response challenges.
- Designed and implemented features for the app, enabling efficient coordination of rescue operations, real-time location tracking, and resource allocation for disaster-affected areas.
- Integrated advanced technologies to enhance user accessibility and safety, ensuring the app's functionality in low-network environments for effective disaster response.
- Collaborated with a diverse team to deliver a scalable solution, showcasing problem-solving skills and innovation under tight deadlines, contributing to the team's recognition in the hackathon.

EDUCATION

Bachelor of Technology

SRM Institute Of Science & Technology

📅 08/2023 - 05/2027 📍 Tiruchirappalli, Tamil Nadu

PROJECTS

Project Portfolio 1

📅 08/2024 - 08/2024

🔗 <https://port-folio-1-jet.vercel.app/>

Series of web applications demonstrating various functionalities

- Portfolio showcasing multiple web applications developed
- Demonstrates skills in frontend and backend development

Project Portfolio 2

📅 10/2024 - 10/2024

🔗 <https://portfolio-khaki-five-24.vercel.app/>

Short summary of your work

- Demonstrates skills in frontend and backend development
- Portfolio showcasing multiple web applications developed

Tic-tac-toe

📅 09/2024 - 09/2024

🔗 <https://tictactoe-two-beta.vercel.app/>

Short summary of your work

- Designed and developed an interactive Tic-Tac-Toe game using front-end technologies such as HTML, CSS, and JavaScript, delivering a seamless and engaging user experience.
- Implemented responsive design principles and intuitive game logic, ensuring smooth gameplay and visual appeal across various devices and screen sizes.

Todolist

📅 10/2024 - 10/2024

🔗 <https://todolist-three-indol.vercel.app/>

Short summary of your work

- Developed a dynamic To-Do List application using front-end technologies like HTML, CSS, and JavaScript, enabling users to efficiently manage tasks with an intuitive interface.
- Incorporated responsive design and interactive features, such as task addition, deletion, and status updates, ensuring a seamless user experience across various devices.

Employment Management System

📅 12/2024 - 12/2024

🔗 <https://tinyurl.com/yw8udcc7>

Short summary of your work

- Designed and developed an Employment Management System using front-end technologies (HTML, CSS, JavaScript) and back-end technologies (Node.js, MongoDB), streamlining employee data management and administrative processes.
- Implemented user-friendly features such as employee record tracking, role-based access control, and data visualization, ensuring an efficient and responsive interface across devices.
